DO NOT CIRCULATE

The Yugoslav Navy recently installed a triangulation apparatus at Punta Grossa, Zone B, Free Territory of Trieste in order to determine whether or not a ship has crossed the Morgan Line into Yugoslav territorial waters. When a ship crosses the line as determined by the triangulation, a signal is sent to Koper and the Peoples Militia motor launch goes out to notify the ship of the violation. If the offending ship is a fishing vessel, the fishing nets and catch are confiscated whether the fish were caught in the waters of Zone A or Zone B.
